#ThroughBelkaToBali

ALEXANDER BELKOVICH:

"Bali is an incredible island with unique culture based on traditions of different countries. Travelers from all over the world brought the recipes and trends which were adapted to the local climate. That's how the modern Bali cuisine was formed.

We tried to combine the energy of the bright sun of Indonesia, original recipes and natural ingredients — we were specifically looking for the right mango and dragonfruit.

I am sure you will like it! "

#ThroughBelkaToBali
